I was born on August 31, 2002, in Ireland. However, my parents are originally from the Democratic Republic of Congo and moved to Ireland before I was born. Growing up, I developed a passion for programming and creating websites and video games. In addition to my interest in technology, I also have a love for music. I play both the bass guitar and piano, and I find playing music to be a great way to express myself creatively.

Willing to relocate: Anywhere

Personal Details

European Union Work Permit: Yes

Work Experience

ICT Clerical Officer

State Laboratory - Kildare, County Kildare

January 2023 to August 2023

As an ICT support specialist, my primary responsibility was to provide technical assistance to all employees within the company. This involved performing daily checks to ensure that all systems were running smoothly, updating the website as necessary, and monitoring the internet firewall and email filtering to maintain the security of the network.

Additionally, I was responsible for building custom Windows OS images for laptops used by employees who preferred a one-device setup, and ensuring that all software and hardware were up-to-date and functioning optimally. In this role, I utilized a variety of skills, including expertise in operating systems, network security, website development, and software installation.

Furthermore, I was also responsible for maintaining the company website, making changes when necessary to keep it up-to-date and user-friendly. This involved using my web development skills to create engaging and informative content, as well as ensuring that the website was easily accessible and navigable for all users.

Temporary Sales Assistant (Christmas contract)

Penny's (Primark) - Drogheda, County Louth

October 2022 to January 2023

During my time working at Penneys, I had a variety of duties that required me to be versatile and attentive to detail. Specifically, I was responsible for covering the sales floor, stockroom, office areas, and canteen duties.

On the sales floor, I ensured that all merchandise was displayed neatly and accurately labeled. I also assisted customers in locating items and provided helpful product information to enhance their shopping

experience. In the stockroom, I organized and maintained inventory levels, ensuring that all items were accounted for and readily available for the sales team.

In the office areas, I was responsible for various administrative tasks, such as processing invoices, managing schedules, and maintaining records. Additionally, I helped out with canteen duties, ensuring that the area was clean and tidy, and that all customers received prompt and courteous service.

Throughout my time at Penneys, I was committed to providing excellent service to both customers and fellow employees. I consistently performed my tasks with diligence, attention to detail, and a positive attitude, making me a valuable member of the team.

Sales Assistant

Rumbles Restaurant - Drogheda

June 2022 to July 2022

I worked with Rumbles restaurants in popular concerts and smaller events throughout the month of June. Concerts in Malahide and the popular Longitude concert in Marley Park. I worked selling food and dealing with cash. As well as cooking the food (burgers and chips to be sold to the customers).

Certifications and Licenses

Solo Learn HTML Course Certificate

Present

I recently completed the Solo Learn HTML Course and earned a certificate in HTML programming. Through this course, I gained a comprehensive understanding of HTML coding, including the syntax, structure, and essential elements required to create and maintain professional websites.

The program covered a range of topics, including HTML tags, elements, and attributes, as well as CSS styling, responsive design, and web development best practices. Additionally, the course provided hands-on coding exercises and quizzes to reinforce my learning and assess my understanding of the material.

By earning this certificate, I have demonstrated my proficiency in HTML programming, and I am equipped with the knowledge and skills necessary to create and manage websites effectively. I am excited to apply these skills to future web development projects and contribute to the success of any team I join.

Solo Learn HTML Course Certificate

Present

The course provided interactive coding exercises and quizzes, which allowed me to practice my skills and assess my understanding of the material. By completing this course and earning the certificate, I have demonstrated my proficiency in CSS programming, and I am equipped with the knowledge and skills necessary to create and manage visually stunning websites.

I look forward to applying my skills to future web development projects and contributing to the success of any team I join.
